

SAGE OIL VAC **PM TRAILER**

MODEL 1C5F-2104

The 1C5F-2104 trailer is setup like the 1C5H-3 model but without the third tank. The shorter trailer and economical price point make it a great choice for the operation that needs straight oil change. The open trailer design also optimizes load conditions, tongue weight and axle weight for a safer transport to your jobsite.
